

INSIGHT 100

FOR BANKS & FINANCIAL INSTITUTIONS

TASK & ASSOCIATES

Chartered Accountants

INSIGHT 100

Is a product developed by Task Technologies the IT arm of TASK & Associates Chartered Accountants. This product is result of dedicated efforts put by our team over past three years.

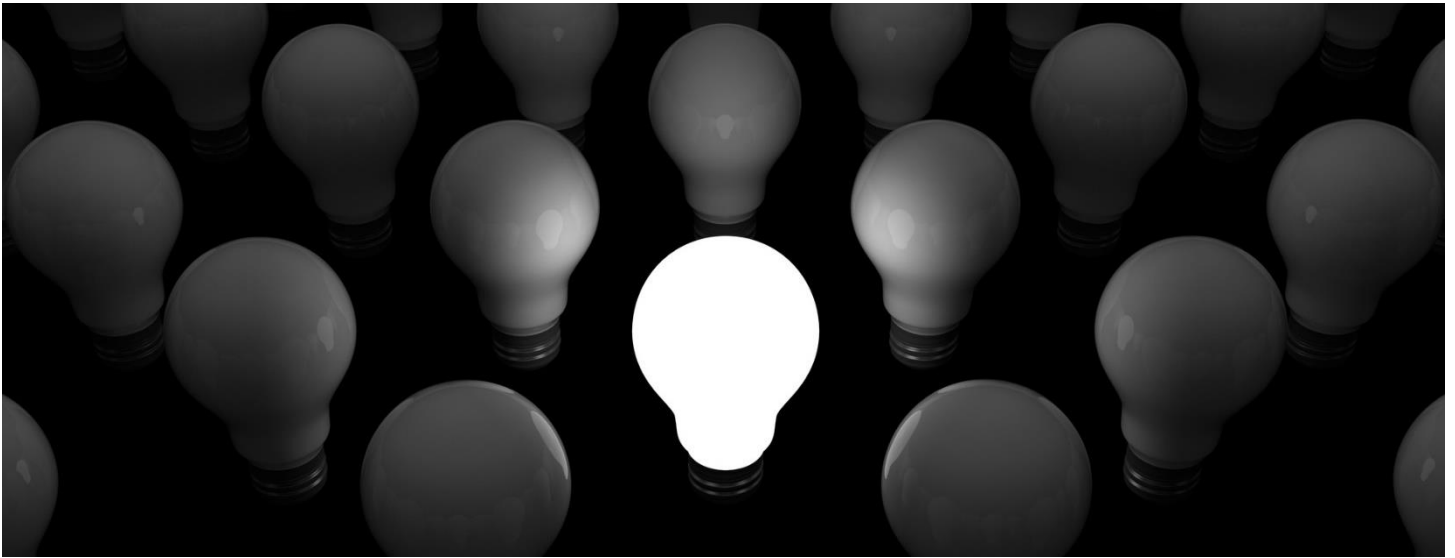

The idea behind development of INSIGHT 100 was to develop a tool which can trigger timely warning & help lenders in reducing the risk of any lending turning into NPA.

75 years of consolidated experience of our partners ensured that we can help Banks and financial institutions in this endeavor through a swift, cost efficient and highly effective tool called INSIGHT 100

THE PRODUCT

INSIGHT 100 is powerful tool to know your borrower and assessing the quality of credit utilization by it. INSIGHT 100 checks more than 100 critical parameters and reports on:

Why INSIGHT 100 is useful:

At the Time of Credit Appraisal of Proposed Client: INSIGHT 100 can provide a detailed & structured information about the affairs of the company applying to seek credit its promoters & directors and their relationships with other entities.

Tool to Keep Credit Risk Under Check: Once loan is disbursed the performance of Credit facility is predominantly assessed on timely payment of EMI, principal, Interest, the periodical submission of financial statements and other information.

In this situation any mismanagement of credit facility which may put the loan facility under risk of being NPA/Willful defaulter comes to notice of Bank only after the damage is done, in fact in most of the cases long after the damage is done

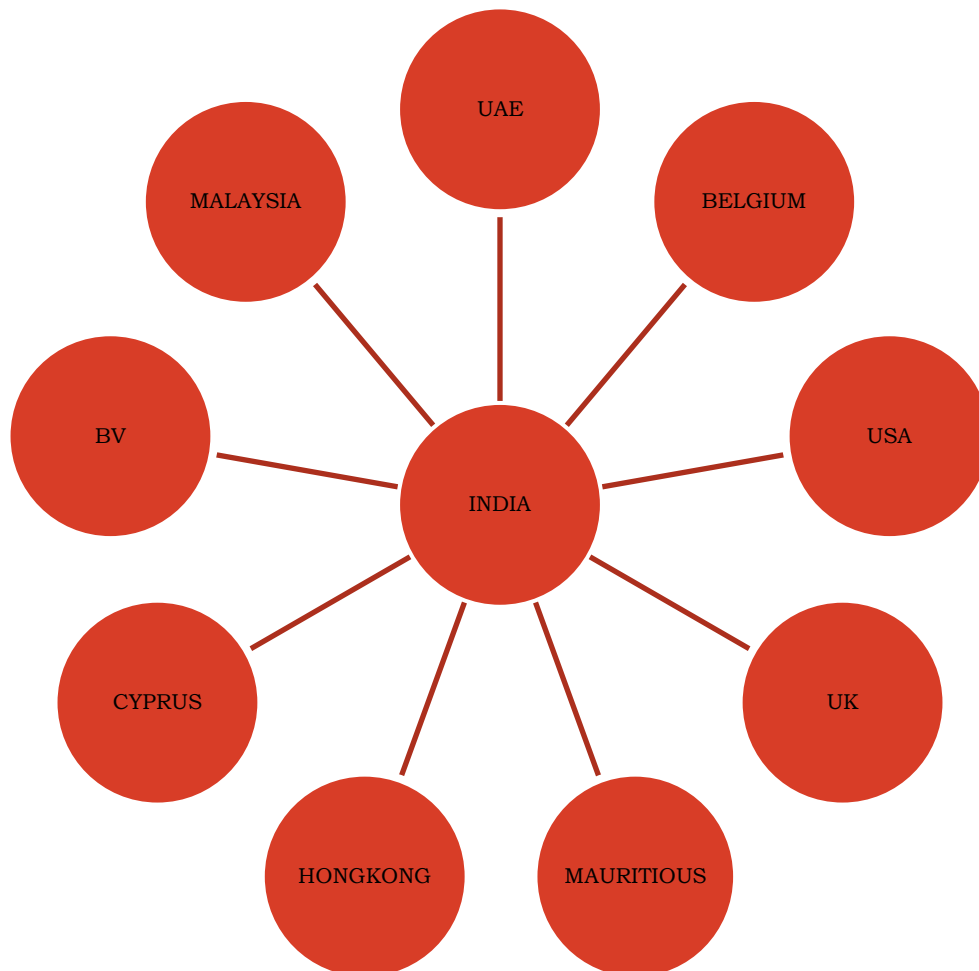

However now the officer of bank monitoring any credit facility may call for INSIGHT 100 on any company to which the borrower made or is making payment using that facility. This report will help

in knowing the profile of that company and its financial strength and quality of statutory compliance of that company in next 24 hrs. Thus, lender will have timely firsthand information to assess if the borrower is using fund for designated purposes or is there any diversion of funds taking place. INSIGHT 100 thus can help bank officer in taking the necessary steps if any needed.

This way INSIGHT 100 can help in minimizing the credit risk and fixing the accountability.

During Audit Process: If during audit process (Internal, statutory, concurrent or any other audit) auditor needs information about any entity, INSIGHT 100 is a useful tool to provide quick, detailed and structured information about that entity.

Coverage: INSIGHT 100 can be called for any company incorporated in:

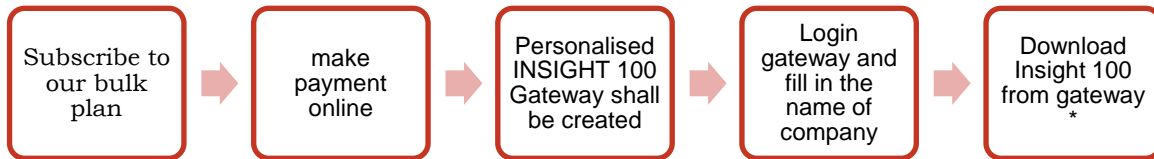

PROCESS: To get INSIGHT 100 on any company

For single INSIGHT 100 report:
